

GROWING HOME

2019 SUMMER CSA

USDA Certified Organic vegetables grown in Englewood, Chicago

Growing Home's CSA includes 7-9 main vegetables, plus an assortment of herbs or smaller produce items. The CSA has a higher retail value than what a CSA customer spends. At Growing Home, we grow particular varieties for our CSA customers and make sure CSA boxes are plentiful first and foremost. We host both a full share (16 boxes every week) and half share (8 boxes every other week). Our CSA runs from the weekend of June 22nd - October 4th with one additional make up week.

Full Share

- \$525 (\$545 after April 30th)
- 16 boxes over 16 consecutive weeks
- Begins weekend of June 21st runs through October 5th
- One make up box if unable to pick up one weekend

Half Share

- \$280 (\$300 after April 30th)
- 8 boxes over 16 weeks
- Box pickups are every other week
- Begins weekend of June 28th and runs through October 5th
- One make up box if unable to pick up one weekend

And many more!!

CSA History:

CSA Stands for Community Supported Agriculture. It began as a way for farms and farmers to get income during the time when they have the least and need it the most in the off-season. Community members can purchase a share early on when it's cold, and then get box after delicious box of produce once it gets warm... all without paying another cent! Its also a way for food lovers to guarantee they're getting fresh, seasonal produce from a place they can see. CSA members get to know the staff at the farm, ask questions, and have a sense of where their food really comes from. Growing Home is proud to be one of Chicago's only urban grown CSAs. Our CSA is not only supporting access to local, organic and sustainable food but also supports our workforce development program and food access work in Englewood.
