

GROWING HOME 2020 CSA

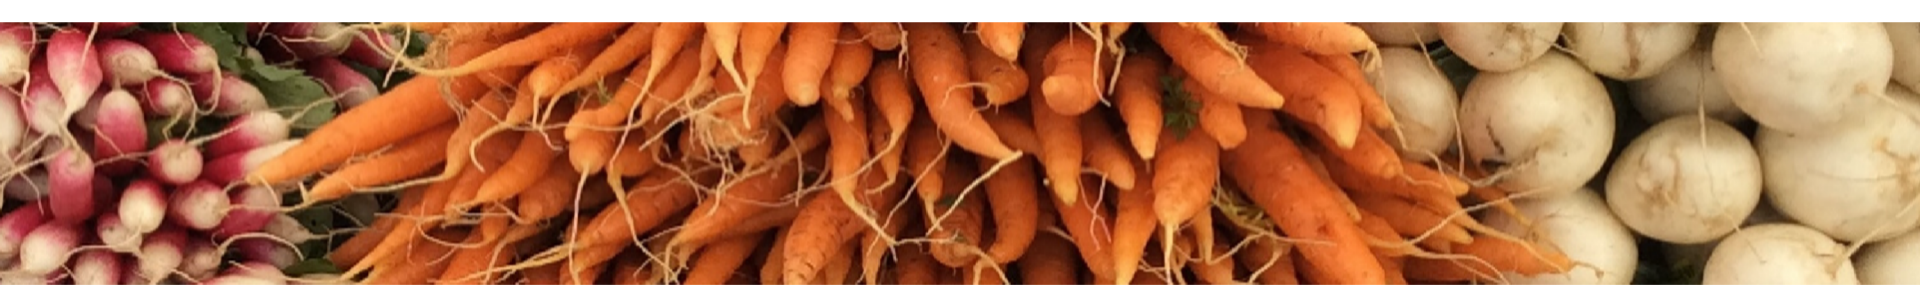

FRESH. ORGANIC. LOCAL. DELIVERED.

Community Supported Agriculture

A CSA is a food production and distribution system that directly connects farmers and consumers.
In short: people buy "shares" of a farm's harvest in advance and then receive a portion of the crops as they're harvested.

Growing Home's CSA includes 7-9 main vegetables, plus an assortment of herbs or smaller produce items.
We host both a full share (16 boxes every week) and half share (8 boxes every other week).
Our 2020 CSA will run from the weekend of June 20 - October 3 with one additional make up week.

Growing Home has worked in Englewood for over a decade, and we are Chicago's first and only USDA-Certified Organic High Production Farm. Growing Home is Chicago's leading expert in farm-based training for people with employment barriers. We have impacted the lives of hundreds of workers and thousands of their family members by providing paid job experience and job-readiness training at our farms.
